

INNOVANT

FORm_office™
ADJUSTABLE HEIGHT

ADJUSTABLE HEIGHT

In 2012, Innovant introduced integrated electric height adjustability into our FORM_office benching line, subsequently winning the Best in Benching Category at Neocon. Surfaces are individually adjustable to suit user requirements, and can be supplied as adjustable on Day-1, or retrofitted for adjustability on Day-2 with minimum effort and cost.

“Well thought through resolutions to typical problems in the workplace”

“Wonderful power and cabling details”

“Thoughtful resolution for accessories and an integrated look of height-adjustable surface with standard.”

-Neocon Jury Comments

Height adjustability and benching are parallel trends in the North American furniture market that have been exceptionally and uniquely captured by FORM_office.

TECHNICAL DETAILS

AVAILABLE DESK WIDTHS: 54" to 78" in 6" increments (special sizes above 78" are available, but require a central transitional leg and lifting column)

STARTING DESK HEIGHT: 28-3/8" (standard) with special lower heights available

STANDARD DESK DEPTHS: 30", 33" & 36"

STROKE LENGTH: 26"

DUTY CYCLE: 10% or 6 minutes per hour or maximum 2 minutes at continuous use

STANDARD LEG COLORS: White, silver or black

AMPERAGE DRAW:

QUANTITY OF LEGS	2	3
WATTS	300	450
AMPERAGE DRAW UNDER MAX LOAD	4.25	1.75
AMPERAGE AT IDLE	0.1	0.1

CONTROL SWITCH OPTIONS

TOP LEFT: Standard up/down switch, flush in the worksurface (*available in black or white*).

TOP RIGHT: Standard up/down paddle below nosing. **BOTTOM**

LEFT: Special 3-preset control switch. **BOTTOM RIGHT:**

Special 3-preset control switch with LED display.

MID CHANNEL DETAILS

TOP: Recessed central divider in fabric. **BOTTOM:** Full mid channel solid infill.
**Optional cable chain removed for clarity.*

CABLING DETAILS

TOP: Detail of cable chain bringing cables down to raceway.
BOTTOM LEFT: View into raceway with surface lifted
BOTTOM RIGHT: Central cable grommet in work surface gathers desktop cabling prior to entering cable chain.

TRANSITIONAL LEGS

TOP: Standard 4" wide independent legs allow frames to separate for reconfiguration.

BOTTOM: Special 8" wide shared legs require desk frames to remain together.

SAMPLE END CONDITIONS

INTEGRATING WITH FIXED HEIGHT

Clients can mix fixed height bench frames with adjustable height components to allow for only select positions to be adjustable. Such conditions can be programmed into a floorplan with the assistance of an Innovant specification specialist as they require special sizing of adjacent frames and work surfaces. In the image above, only the middle positions of this 6-desk cluster are adjustable.

DAY 2 CONVERSION

DAY 1

CONVERSION KIT

DAY 2

Adjustable height benching, though a growing trend, is not a universal requirement for all companies moving to open plan workstations. The ability to specify such a convertible product as Innovant's FORM_office allows clients the flexibility to adapt to adjustable height requirements in the future. This grants clients the option of adjustability without committing to the feature too early, and also helps curb noticeable costs at the time of purchase. For Day-2 conversion, the bench should be specified on Day-1 with sliding tops and 1" gaps between the work surfaces. A conversion kit will be specified separately to retrofit the bench with adjustability.

in worksurface.

BOTTOM: Detail of
optional steel gap filler
on fixed height desks.

SINGLE CONDITIONS

On single-sided adjustable height desks, Innovant recommends specifying rear privacy panels to conceal the raceways and desktop supports.

INNOVANT

INNOVANT

OUR STORY

Innovant designs and manufactures intelligent office furniture for the modern workplace. A recognized leader in the industry, we focus on integrating seamlessly into the overall architecture of a space, optimizing real estate, promoting employee productivity, and ensuring long term value to the client business. Innovant's adaptable open plan workstations, conference solutions, private office designs and specialty furnishings are available to view in showrooms worldwide.

We know that our clients navigate complex decisions when choosing a furniture system. Innovant provides expert guidance along the way, collaborating with client teams to determine optimal product configurations. Where appropriate, we will recommend and engineer tailored solutions based on specific client requirements. Every Innovant product is designed for efficient installation and easy reconfiguration over time as new features are introduced.

SUSTAINABILITY

Environmental stewardship is a primary component of Innovant's core philosophy. One of our key missions is to minimize our impact on the environment and to ensure our products are environmentally sustainable. All of our standard products already conform to a variety of eco-requirements and many items can be further configured to maximize LEED points.
