FORm_office™
TECHNOLOGY INTEGRATION

TECHNOLOGY INTEGRATION

FORm_office sets the industry benchmark for managing and integrating technology into an ever shrinking footprint. The framework evolved from the world's leading trading desk system in 2010. It delivers unparalleled cabling capacity and access, combined with cutting edge features to house, support and protect the technology we rely on everyday.

Without sacrificing its modern and clean aesthetic, FORm_office delivers award-winning solutions to even the most advanced technology intensive environments.

CPU SUPPORT

The FORM_office frame is engineered to accept technology housing options that can contain and protect up to 4 CPUs per user (subject to available footprint), while effectively routing heat gains from the technology away from the user. Oversized raceways provide the highest capacity cable management, with enough space to deliver advanced level power and data cabling.

HIGH DENSITY CPU SUPPORT

TOP: multiple CPUs per user in high density IT environments.

BOTTOM: Detail of hinged access door to CPU enclosure.

LOW DENSITY CPU SUPPORT

TOP LEFT: CPU sling.

TOP RIGHT: CPU dolly.

BOTTOM: Fold down thin client shelf below work surface.

MONITOR SUPPORT

On FORM_office, monitor arms secure to an accessory mounting beam at the back of each user's work surface. This beam, well known in the industry as the AX150, provides surface level mounting of monitor arm brackets for easy installation and relocation of monitors. Additionally, the structural design of the extruded aluminum beams makes for the strongest arm-to-desk attachment in the market, eliminating annoying monitor vibration found in products with lighter weight arm-to-desk attachment designs.

COMPATIBLE MONITOR ARMS

Thrive™	Wishbone / Wishbone Plus / Flo / Daisy One
Humanscale™	M2 / M7 / M8 / Paramount / MFlex
Ergotech™	Apex Series / 200 Series / 600 series
Chief™	All Pole Mounted Systems
Innovative Office Products	All Pole Mounted Systems

INNOVANT

OUR STORY

Innovant designs and manufactures intelligent office furniture for the modern workplace. A recognized leader in the industry, we focus on integrating seamlessly into the overall architecture of a space, optimizing real estate, promoting employee productivity, and ensuring long term value to the client business. Innovant's adaptable open plan workstations, conference solutions, private office designs and specialty furnishings are available to view in showrooms worldwide.

We know that our clients navigate complex decisions when choosing a furniture system. Innovant provides expert guidance along the way, collaborating with client teams to determine optimal product configurations. Where appropriate, we will recommend and engineer tailored solutions based on specific client requirements. Every Innovant product is designed for efficient installation and easy reconfiguration over time as new features are introduced.

SUSTAINABILITY

Environmental stewardship is a primary component of Innovant's core philosophy. One of our key missions is to minimize our impact on the environment and to ensure our products are environmentally sustainable. All of our standard products already conform to a variety of eco-requirements and many items can be further configured to maximize LEED points.
